

SMART GAMING RFID SYSTEM

Automate. Authenticate. Accelerate.

01. ARENA SETUP

Unified Inventory & Pricing Management

MODULAR CONFIGURATION

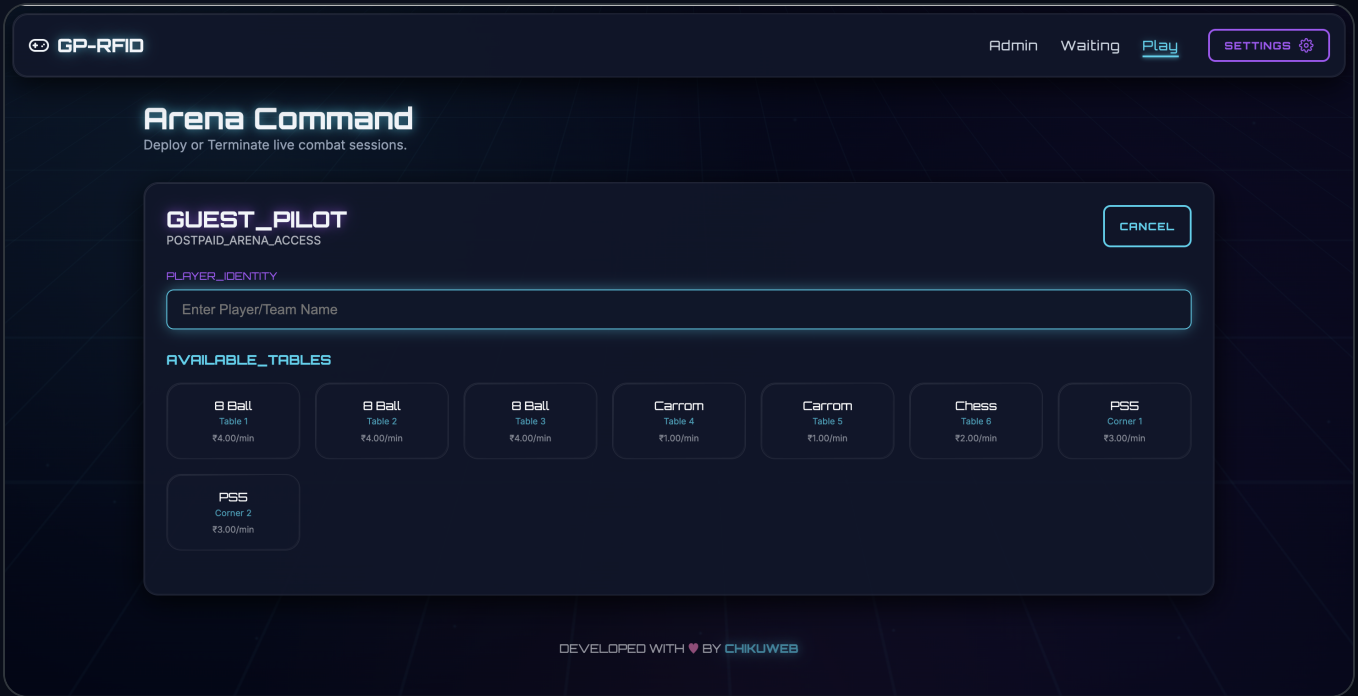

Define multiple game categories (PS5, Pool, PC) with specific player capacities and per-minute billing rates.

DIRECT EDIT CONTROL

Instant adjustments to rates and game status without shutting down the entire system.

02. ARENA COMMAND

Dynamic Session Deployment

PLAYER-CENTRIC IDENTITY

Assign individual or team names (GUEST_PILOT) to cards for personal session tracking and leaderboards.

REAL-TIME AVAILABILITY

Visual grid showing 'Available Tables' vs active ones, preventing double-booking and confusion.

03. SECURE INITIATION

Verification & Contactless Entry

ARENA_INITIATION

ACCESS_CODE

4540

START ARENA

CANCEL_INITIATION

SAFE PROTOCOL

Every session requires an **Access Code** or QR scan. This ensures only authorized users can activate high-value hardware.

- Multi-factor session start
- Prevents hardware theft
- Automated activation

04. CONTROL CENTER

The Master Dashboard for Operations

GP-RFID Admin Waiting Play SETTINGS

Control Center

Real-time arena occupancy and oversight.

Table 4

LIVE OCCUPANCY

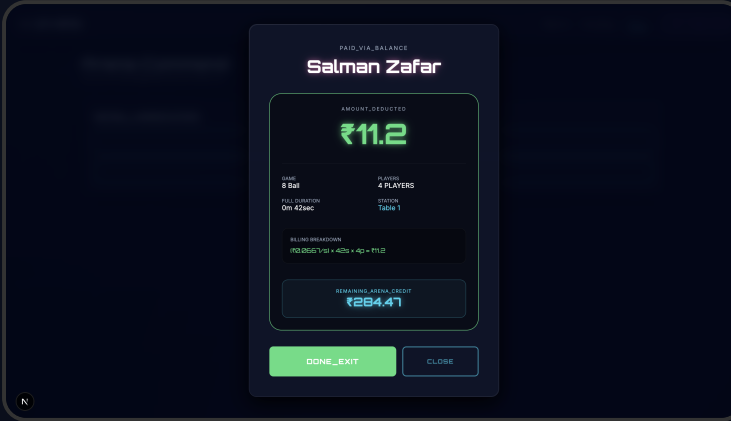

See exactly who is playing, for how long, and which tables are 'Idle' in a single glance.

WAITLIST AUTOMATION

Integrated queue management system to handle peak hour traffic efficiently.

05. PRECISE BILLING

Automated Revenue Calculation

MICRO-BILLING LOGIC

System calculates costs down to the second (₹0.0667/s) ensuring total fairness.

REMAINING_CREDIT
₹284.47

Automated deductions from preloaded RFID wallets eliminate cash handling errors.

READY TO EVOLVE?

Deploy the Smart Gaming Parlour System today and scale your business without the manual stress.
